1. Introduction & Module Overview

Front Office is the hotel's most important module — it manages the guest's complete journey from first contact (check-in) to last contact (check-out & billing). In Analysis HMS the Front Office Module handles guest registration, room assignment, folio (bill) management, in-house guest tracking, check-out settlement and all related reports. This training manual teaches front desk staff to operate the system step by step. GUEST JOURNEY (Training Flow): Reservation/Enquiry → Guest Arrival → Registration (GRC) → Room Assign → Check-In → Stay (charges post, room change, folio merge) → Check-Out → Bill Settlement → Bill Print → Guest History

Module Sections Overview

Section	Purpose	Key Screens
MASTER (Setup)	One-time setup — rooms, plans and sources	FOM Parameter, Business Source, Guest Status, Charge/Plan Master, Room Category/Master, Booking Source, Building
OPERATIONS	Daily guest lifecycle	Blank GRC, Walk-In Check-In, CheckIn List, Room Status, In-House Status, Add New Profile
TRANSACTIONS	Billing & folio	Bill Reprint, Bill Re-Settlement, Misc Payment, Merge/Reverse Merge Folio
REPORTS	Daily register & audit	CheckIn/CheckOut Register, Cashier, Occupancy, Expected CheckOut, Complimentary, Room Change History
MIS REPORTS	Management analytics	Room Inventory, Sale Summary, Company Contribution, Guest Trail, Revenue Source
TAX REPORTS	GST compliance	FOM Tax Detail

Keyboard Shortcuts (for Front Desk)

Shortcut	Screen	when to use
Shift + W	Walk-In Check In	Guest walks in directly and asks for a room
Shift + S	Room Status	To see available/dirty rooms
Shift + I	In-House Room Status	Status of in-house guests
Shift + H	Housekeeping Screen	Coordinate with HK team

Key Benefits

- Fast walk-in check-in — assign a room in 2 minutes
- Digital GRC (Guest Registration Card) — paperless
- Live room status — which room is available/dirty/occupied
- Folio-based billing — all charges in one place
- Multiple payment modes with GST auto-calculation
- Merge folio — family/group in one bill
- Complete guest history — repeat guest recognition
- Night audit integration — automatic day close

- Main Setup → Front Office: FOM Parameter, Business Source, Guest Status, Charge Master, Plan Master, Room Features, Room Category, Room Master, Booking Source, Building Master

How does the system work (Technical Understanding)

The entire data of Front Office is saved in the cloud database. For training it is important to understand which table your entry goes into:

what are you doing	Database Table	What store is there?
Check the guest in	roomocc	Room no, check-in date/time, adult/child, rate, plan, expected checkout
Fill in guest details	guestprof	Name, mobile, email, address, nationality, ID details
Folio/bill is made	guestfolio	Ledger entry for every charge, tax, payment
Room setup (admin)	room_mast	Room no, category, floor, building, status
Room types (admin)	room_cat	Category name, rate code, occupancy
Night audit	nightauditlog	Log of software date advance

3. Master Module — Setup & Configuration

Master setup happens once — defining the property's rooms, rates, sources and parameters. Front desk needs this only for coordination, entries are mainly administered.

3.1 FOM Parameter

Navigation Path: Main Setup ► Front Office ► Fom Parameter

3.1 FOM Parameter

Global settings of the Front Office Module — check-in/check-out time, tax rules, folio printing rules, GRC format parameters etc. These control the behaviour of the entire module.

Parameter Group	What controls?
Check-In / Check-Out Time	Default arrival/departure time
Tax Parameters	GST slabs, tax inclusive/exclusive
Folio/GRC Params	Print format, numbering
Night Audit Settings	Auto no-show, day close rules

3.2 Business Source

Navigation Path: Main Setup ► Front Office ► Business Source

3.2 Business Source

Where is business coming from – Walk-In, Phone, WhatsApp, OTA (MakeMyTrip, Booking.com), Corporate etc. On every check-in, business source is selected, after which Revenue Source Report is created.

Field	Description	Example
Source Name	Business source name	MakeMyTrip
Code	Short code	MMT
Active	Enabled/disabled	Yes

3.3 Guest Status

Navigation Path: Main Setup ► Front Office ► Guest Status

3.3 Guest Status

Define guest categories — Regular, VIP, Corporate Guest, Complimentary etc. Special handling and alerts for VIP guests come from this.

Field	Description
Status Name	Regular / VIP / Semi-VIP / Complimentary
Description	Meaning of this status

4.6 Add New Profile

Repeat guest or company/agent profile should be created in advance – it has to be selected only at the time of check-in. Name, contact, ID, preferences, GSTIN are saved in guest profile.

Profile Type	What has been saved?
Guest Profile	Name, mobile, email, address, ID proof, DOB/Anniversary
Company Profile	Company name, GSTIN, address, billing contact
Travel Agent	Agent name, commission %, contact

4.7 Room Change (from CheckIn List)

Guest room change required: CheckIn List → guest select → Room Change → new room (vacant must be cleaned) → reason → save. The old room is becoming vacant, the folio is being shifted to the new room. History is mentioned in 'Room Change History' report.

1. Open the CheckIn List
2. Click the Room Change action on the guest row
3. Select a new room from available rooms
4. Give reason (optional) and save

4.8 Amend Stay (Date/Rate Change)

If the guest extends/shortens the stay or the rate changes: CheckIn List → Amend Stay → new departure date or rate → update. Nights are auto-recalculated and room charges in the folio are adjusted.

5. CheckIn List → select the guest
6. Click Amend Stay
7. Enter the new departure date / rate
8. Save — the difference will be posted to the folio

5. Transactions Module — Billing & Folio

All billing-related work at check-out time or during the stay. Folio = the guest's bill ledger, where room charges, POS charges and payments are all posted.

5.4 Merge Folio

Navigation Path: *Front Office ► Operations ► Merge Folio*

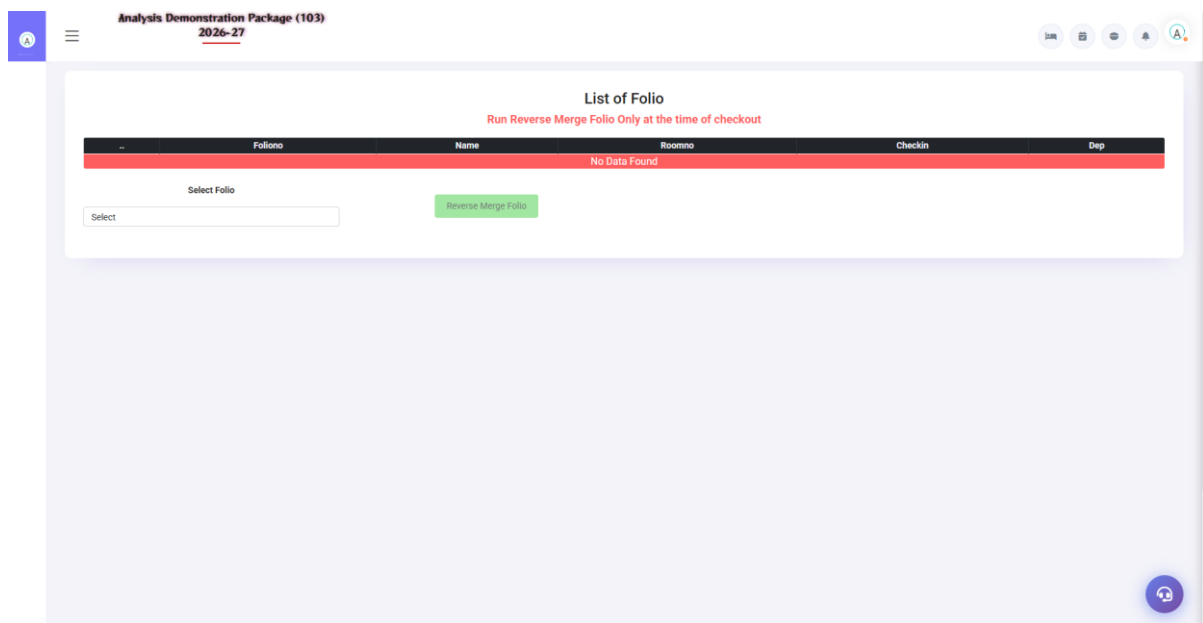

5.4 Merge Folio

Combine separate folios of multiple rooms of one guest/family into one — one bill at checkout. E.g. Room 101 and 102 both for the same guest — one bill by merging both the folios.

13. Open the Merge Folio screen
14. By selecting master folio (which has to be merged)
15. Select the folios to merge
16. Confirm — all charges will move to the master folio

5.5 Reverse Merge Folio

Navigation Path: Front Office ► Operations ► Reverse Merge Folio

5.5 Reverse Merge Folio

Have you merged by mistake? Reverse Merge separates the folios back — charges go back to their original rooms.

17. Open Reverse Merge Folio
18. Select the merged folio
19. Select which charges to reverse?
20. Confirm — the folios will be separated

5.6 Check-Out & Settlement Process (Complete Flow)

This is the most important training flow – while visiting the guest:

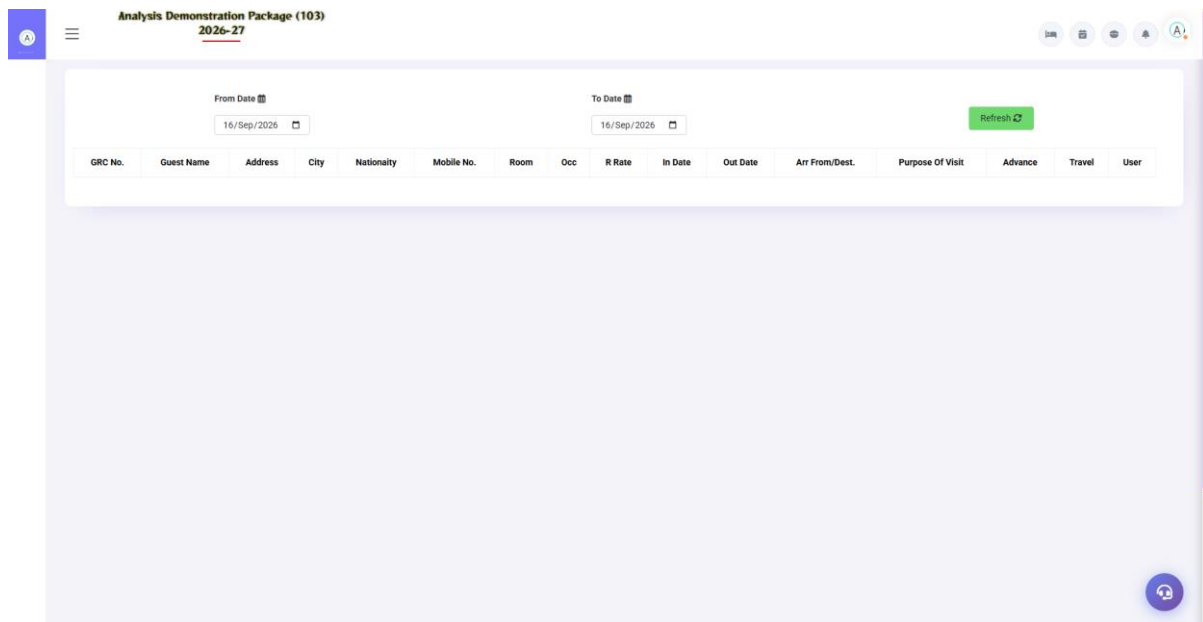

21. Open the guest's folio from In-House/CheckIn List
22. Please verify all charges – room nights, POS, laundry, minibar
23. If a discount applies — only within the authorized discount %
24. Adjust the advance/deposit
25. Select the payment mode — Cash / UPI / Card / City Ledger (company bill)
26. Settle by clicking — GST auto-calculate is done
27. Print the bill — guest copy + hotel copy
28. Room status appears to be 'Vacant Dirty' - inform HK

8. Dated Reports Analysis — 01-Sep to 18-Sep-2026 (Live Data + Internal Logic)

This section has been created by applying date-filter of 01-Sep-2026 to 18-Sep-2026 from live system. Along with every report, its internal logic is given – which table, which join, which date column is used. Screenshots folder: screenshots/05_Reports_Dated/. Detailed logic file: FO_Logic_Explanation_01to18Sep.txt (found along with the manual). In training, study this section on 3rd day — first Masters (data language), then Operations (guest lifecycle), then these reports with logic.
