1. Introduction & Module Overview

The Finance module is the hotel's double-entry accounting system — all revenue (FO, POS, Banquet, Laundry) and expenses are consolidated here. In Analysis HMS the finance flow: create accounts in Masters (Group → Ledger) → Transactions (Voucher Entry) → Verification → Reports (Trial Balance, P&L, Balance Sheet). POS/Front Office settlement heads (Cash/UPI/Card/City Ledger) post to finance automatically — the accountant's manual entry remains only for adjustments/journals.

Module Sections Overview

MASTER	Chart of accounts setup	Group Accounts, Ledger Accounts, FA Parameter, TDS Category

- Bank reconciliation — easy statement matching
- One-click financial statements — TB, P&L, Balance Sheet
- TDS category wise compliance reports
- Cheque cleared/not-cleared registers — follow-up easy
