1. Introduction & Module Overview

Night Audit is the process of closing the day's business – the hotel's 'day end'. At night a designated auditor does this: 1. Verify settlements of all outlets 2. Post room charges + plan meals on in-house guests 3. Handle Departures/no-shows 4. Print Reports (Daily Report, FOCC) 5. Change software date (rollover). Analysis Night Audit in HMS is a guided process — starts with Charges Posting (Shift+C) and is completed with Night Audit Process (Shift+N). If you make a mistake, you can rollback it from Reverse Night Audit.

Module Sections Overview

Section	Purpose	Key Screens
OPERATION	Day close process	Charges Posting (Shift+C), Night

Section	Purpose	Key Screens
		Audit Process (Shift+N), Reverse Night Audit, Account Posting
REPORTS	Day-end reports	FOCC Report, Daily Report, Credit Report, Feedback Report, Service Request Register
LOG	Audit trail	Night Audit Log, Charges Remove Log
GST	Compliance	GSTR-1

Night Audit Data Flow (Technical Understanding)

Step	Database	what happened?
Room charges post	guestfolio	Daily rent + plan meals entry on every in-house room
Software date advance	nightauditlog	Log entry for the new business date
No-show handling	roomocc/reservations	Update status of guests who could not arrive
Audit trail	kotlog, sale1log	What happened that day — immutable logs

2. Operations Module — Day Close Process

2.1 Charges Posting (Shift+C)

Navigation Path: *Night Audit* ► *Operation* ► *Charges Posting*

2.1 Charges Posting (Shift+C)

The first step of night audit — today's room rent + plan meals (as per CP/MAP/AP) are automatically posted on all in-house rooms. Extra charges (restaurant, laundry) are already in the folio. Manual charges can also be posted from here.

Field	Description
Date	On what date should the charge be posted?

Field	Description
Room/Folio	Kis room pe
Charge Head	Room Rent / Breakfast / Dinner etc.
Amount	Rate/plan based (auto) ya manual
Post All	To all rooms in one click — bulk posting

2.2 Night Audit Process (Shift+N) — Main Process

Navigation Path: *Night Audit ►Operation ►Night Audit Process*

2.2 Night Audit Process (Shift+N) — Main Process

The day-close master wizard — step-by-step checks run: pending KOTs, unsettled bills, no-show processing, room charge posting verification, date rollover. The next step happens only after each step passes.

Check/Step	what happened?
Pending KOTs	By settling the pending KOT bill of any outlet first.
Unsettled bills	By clearing pending bills
No-show	Today's non-arrived reservations no-show mark
Charges verify	Is rent posted on all rooms?
Date Rollover	Software date +1 — new business day starts

2.3 Reverse Night Audit

Navigation Path: *Night Audit ►Operation ►Reverse Night Audit*

2.3 Reverse Night Audit

Is the audit done by mistake (any charge miss/post mistake)? The first audit before reverse is rollback — the date is returned, with corrections, and then audited again. Restricted permission is available (manager/admin).

1. Select the date to reverse
2. Write the reason (saved in log)
3. Confirm — date rollback + charges reverse
4. Make the correction → run the Night Audit Process again

2.4 Account Posting

Navigation Path: *Night Audit* ► *Operation* ► *Account Posting*

2.4 Account Posting

Posting the day's revenue heads to finance ledger accounts — room revenue, F&B revenue, tax heads. This is the bridge between FO/POS and the Finance module.

Field	Description
Revenue Head	Room Rent, F&B, Laundry etc.
Ledger Account	Which ledger will be posted in Finance?
Amount/Period	What date range posting

3. Reports Module

3.1 Day-End Reports

Navigation Path: *Night Audit* ► *Reports*

Daily Report — the manager's morning report

Report	what do you see
FOCC Report	Foreign & Indian guest count — FRRO/police compliance data
Daily Report	Manager report — occupancy, ARR, revenue, arrivals/departures, collection
Credit Report	Credit/City ledger balances — company wise pending
Feedback Report	Summary of guest feedback QR submissions
Service Request Register	Guest requests — status wise
Daily Service Summary	Service performance summary

4. Logs & GST

4.1 Audit Logs

Navigation Path: *Night Audit* ► *Log*

4.1 Audit Logs

Night Audit Log: When did the audit happen, who did it, what date is next. Charges Remove Log: Which charge was removed by whom — audit control. Both of these are evidence during dispute/audit.

Log	Use
Night Audit Log	Audit history — date, time, user
Charges Remove Log	Charge deletion trail — user + reason

4.2 GSTR-1

Navigation Path: *Night Audit* ► *GST Reports* ► *GSTR-1*

4.2 GSTR-1

Invoice-wise outward supply data in GSTR-1 format — the accountant exports it in JSON/Excel and files it on the GST portal. B2B (company GSTIN) and B2C come in separate sections.

Field	Description
Period	Which month's GSTR-1
B2B/B2C	Registered vs unregistered guests invoices
Export	Portal-ready format

5. Complete Screens Gallery — Night Audit (All Captured Screens)

This gallery shows SAARI captured screens of the Night Audit module which is not covered in detail in the main sections. For revision after training — Every screen the trainee has seen before, there is a place for complete reference.

G.02 02_Reports — 03 Credit Report

G.03 02_Reports — 04 Feedback Report

The screenshot shows the 'Feedback Report' interface. At the top, there's a header with 'Analysis Demonstration Package (103)' and '2026-27'. Below this, there are date filters for 'From Date' and 'To Date', both set to '16/Sep/2026'. There are 'Refresh' and 'Print' buttons. A table with 13 columns is shown: Feedback ID, Date, Guest Name, Room No, Mobile, Email, Folio No, Purpose, Overall Rating, Comments, Improve, Question, and Question Rating. The table is currently empty, with a message 'No Data Available In Table' in the center. Below the table, it says 'Showing 0 to 0 of 0 entries'. There are 'Previous' and 'Next' navigation links. A search bar is located on the right side of the table. The interface is clean and modern, with a light blue and white color scheme.

G.03 02_Reports — 04 Feedback Report

G.04 02_Reports — 05 Service Request Register

The screenshot shows the 'Service Request Register' interface. At the top, there's a header with 'Analysis Demonstration Package (103)' and '2026-27'. Below this, there are date filters for 'From Date' and 'To Date', both set to '16/Sep/2026'. There are 'Refresh', 'Print', and 'Excel' buttons. The interface is clean and modern, with a light blue and white color scheme.

G.04 02_Reports — 05 Service Request Register

G.05 02_Reports — 06 Daily Service Summary

The screenshot displays the 'Analysis Demonstration Package (103) 2026-27' interface. At the top, there is a header bar with a blue square icon containing a white 'A', a hamburger menu icon, the title 'Analysis Demonstration Package (103) 2026-27', and a series of icons including a printer, a document, a speech bubble, a bell, and a user profile. Below the header, the main content area is a light purple rectangle. Inside this area, there is a white box containing two date pickers labeled 'From Date' and 'To Date', both set to '16/Sep/2026'. Below the date pickers are three buttons: a blue 'Refresh' button, a blue 'Print' button with a printer icon, and a green 'Excel' button with a document icon. At the bottom right of the main content area, there is a blue circular icon with a white speech bubble.

G.05 02_Reports — 06 Daily Service Summary

G.06 03_Log_GST — 02 Charges Remove Log

The screenshot displays the 'Analysis Demonstration Package (103) 2026-27' interface. At the top, there is a header bar with a blue square icon containing a white 'A', a hamburger menu icon, the title 'Analysis Demonstration Package (103) 2026-27', and a series of icons including a printer, a document, a speech bubble, a bell, and a user profile. Below the header, the main content area is a light purple rectangle. Inside this area, there is a white box containing two date pickers labeled 'From Date' and 'To Date', both set to '16/Sep/2026'. Below the date pickers are three buttons: a blue 'Refresh' button, a blue 'Print' button with a printer icon, and a green 'Excel' button with a document icon. Below the buttons is a dropdown menu labeled 'Users' with a downward arrow. At the bottom right of the main content area, there is a blue circular icon with a white speech bubble.

6. Appendix — Night Auditor Checklist

Night Shift Checklist (in Sequence)

Order	Task	Screen
1	By clearing unsettled bills of all outlets	Settlement Entry (POS)
2	By checking Pending KOTs	Pending KOT (POS)
3	Have today's expected departures settled?	Expected CheckOut (FO)
4	Mark non-arrivals (no-show)	Reservation List (FO)
5	Charges posting — rent + meals	Charges Posting (Shift+C)
6	Cash/counter summary match	Cashier Reports
7	Run the Night Audit Process	Night Audit (Shift+N)
8	Print the Daily Report + FOCC	Reports
9	Account posting verify	Account Posting
10	Check the log entry — all fine?	Night Audit Log

Common Scenarios (Training Q&A)

Scenario	what to do
Audit chalte waqt pending KOT dikha	Before stopping, bill/void us KOT in POS, then audit resume.
Rent of any room has not been posted	Reverse the audit or post to that room manually via Charges Posting
The date passed at half past two but someone missed the bill.	Reverse Night Audit → correction → re-audit
No-show guest arrived later	Set status back to confirm in the Reservation List → check-in (or new booking)

Scenario	what to do
Revenue mismatch in account posting	Verify revenue heads vs ledger mapping — FA Parameter

Troubleshooting

Issue	Cause	Solution
Night audit process ruk goes is	Pending bills/KOT	Read Wizard's error message - go to that screen and clear it.
Double advance got booked for the date	Audit do baar chala	Roll back via reverse audit
Charges duplicate posts	Double posting	Check the Charges Remove Log, remove the charges (will appear in the log)
Invoice missing in GSTR-1	Bill date period spring	select period correctly
Company not in credit report	Bill was settled directly	Verify the city ledger posting
