1. Introduction & Module Overview

The Inventory module is the hotel's store and purchase system — from vegetables to amenities, the stock of all items is tracked. In Analysis HMS the inventory flow: Quotation/Indent → Purchase Order → Material Receive (MR) → Purchase Bill (stock in) → Requisition → Stock Issue (stock out) → Reports (register, summary, movement). Kitchen/Outlet consumption is deducted automatically from POS sales on a recipe basis (through the Recipe Master). PURCHASE CYCLE (Training Flow): Need identified → Indent → Quotations compared → PO issued → Material Receive → Purchase Bill entry → Payment (Finance) — and the consumption side: Department requisition → Stock issue → Stock reports

Module Sections Overview

Section	Purpose	Key Screens
MASTER (Main Setup)	Items, parties, opening stock	Party Master, Item Group/Category/Entry, Opening Stock, Recipe Master
OPERATION	Purchase + issue cycle	Quotation, Indent, PO, MR Entry, Purchase Bill, Stock Transfer, Requisition, Stock Issue
REPORTS	Stock position	Stock Register/Summary/In Hand, Purchase Register/Summary
MIS	Consumption analysis	Stock Movement, Kitchen-wise Issue & Sale
GATE PASS	Inward/outward control	Gate Pass Exit, Security Check, Inward Details

Inventory Data Flow (Technical Understanding)

what are you doing	Database	what happened?
create item	itemmast/itemgrp/itemcatmast	Item code, group, category, unit
MR entry (goods received)	stock tables	Stock IN — qty + rate + batch
With stock issue	stock tables	Stock OUT — department wise consumption
Purchase bill	purchase tables	Vendor bill — stock in + finance liability
Rate update	itemrate	Latest purchase rate — costing base

2. Master Module — Items & Parties

2.1 Party Master (Vendors/Suppliers)

Navigation Path: Main Setup ► Inventory ► Party Master

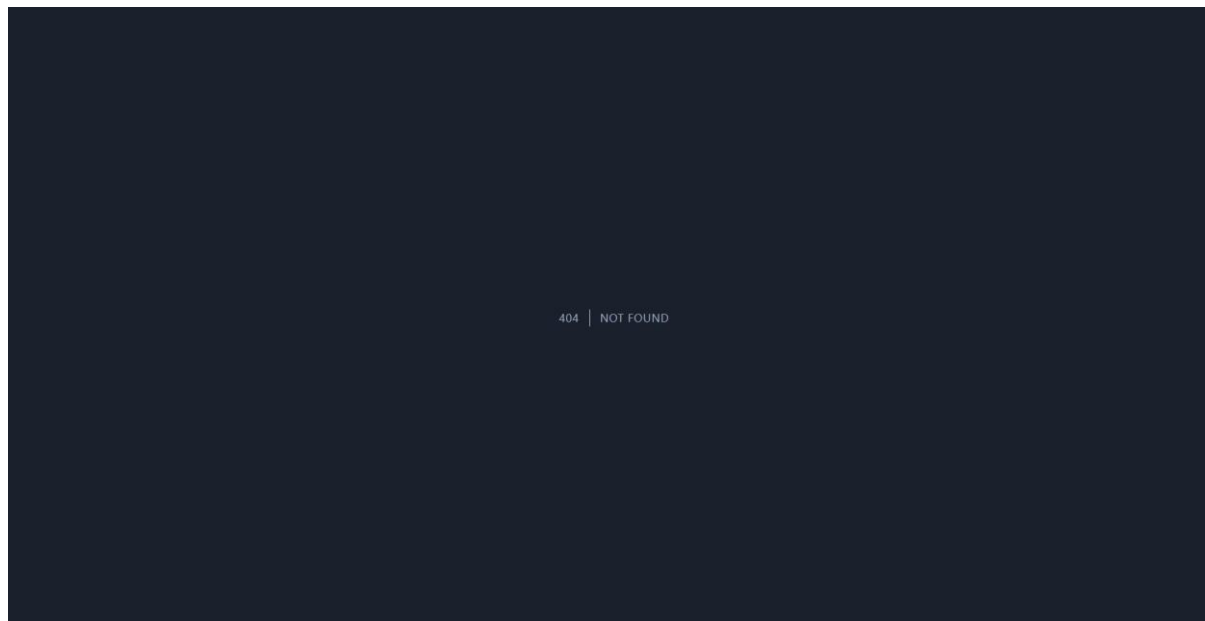

2.1 Party Master (Vendors/Suppliers)

Suppliers/vendors master — name, address, GSTIN, payment terms, TDS category. This is where the party is selected in the Purchase Order and Purchase Bill.

Field	Description	Example
Party Name	Vendor's name	Sharma Vegetable Traders
GSTIN / Address	Compliance data	GST number, city
Payment Terms	Credit period	7 days / Cash on delivery
TDS Category	TDS as per vendor type	194C - Contractor

2.2 Item Group / Category / Item Entry

Navigation Path: Main Setup ► Inventory ► Item Group / Item Category / Item Entry

2.2 Item Group / Category / Item Entry

Items hierarchy: Group (Vegetables/Dairy/Cleaning) → Category (fine detail) → Item entry (code, unit, rate, min stock level, store). The raw items of the dish are defined in Recipe Master — for auto-deduction on sale.

Setup	Fields
Item Group	Group name, type (Food/General/Liquor)
Item Category	Categories under the group
Item Entry	Item name, code, group/category, unit (Kg/Ltr/Pcs), min level, store
Opening Stock	Item wise starting qty + rate (at the time of system start)
Recipe Master	Dish → raw items + qty (1 plate Paneer = 200g paneer + 50g butter...)

3.3 M R Entry (Material Receive)

Goods arrive at receive entry — receive qty against PO, check quality, note short/damage. This is the document of stock IN.

Field	Description
PO No./Vendor	On what order did the material come?
Item/Qty/Rate	How much did you come, at what rate?
Challan No.	Vendor challan reference
Short/Excess/Damage	Quality check remarks

3.4 Purchase Bill

Navigation Path: *Inventory ► Operation ► Purchase Bill*

Purchase Bill entry screen

Vendor's actual bill entry — MR's against bill amount, tax (GST input credit), sundry charges. This entry is made as stock value + vendor liability (payable in finance). Duplicate bill check also happens (same bill no. block).

Field	Description
Vendor + Bill No./Date	Bill identity — duplicate check is performed
MR Reference	What to receive against bill
Item Amounts + GST	Taxable value, CGST/SGST input credit
Sundry (Freight etc.)	Add extra charges to landed cost
Total Payable	How much does the vendor have to pay?

Store Keeper Daily Workflow

Time	Activity	Screen
Morning	View today's indents/pending approvals	Approved Requisition
Vendor arrival	Receive the material (quality check)	M R Entry
Vendor bill received	Enter the bill — with GST input	Purchase Bill
Departments request	After approving the requisition and issuing it	Requisition / Stock Issue
Evening	Stock in hand see — min level below items	Stock In Hand
Weekly	Kitchen variance report — wastage review	Kitchen Wise Issue & Sale

Common Scenarios (Training Q&A)

Scenario	what to do
Material came without PO	Direct MR entry (permission ho) — or create PO first, best practice PO first
Bill came, got less material	Actual qty in MR, billed qty in bill — follow up the difference claim
Department ne bina requisition maanga	First make requisition + approve — usi issue pe
Item rate was posted incorrectly.	Bill cancel/re-edit (with permission), verify in Purchase Register
Stock negative dikha	Issue issued first, received later — MR date check/backdate (authorized)
There was no expired stock in the kitchen.	Physical count + wastage entry — Kitchen Closing Stock Entry

Troubleshooting

Issue	Cause	Solution
Purchase Bill is not being saved	Duplicate bill no.	Bill no./vendor check — this is the duplicate block
PO is not visible in MR	PO already fully received	Check PO pending qty / new PO
There is no issue	Stock insufficient	See Stock In Hand – first receive it.
Item not visible in stock report	Item inactive/wrong store	Check store + active status in Item Entry
Opening stock galat	Initial entry wrong	Correct from the Opening Stock screen (only at year start)
