1. Introduction & Module Overview

The Maintenance module is the system for the hotel's assets (AC, geyser, lights, lift, generator) and their repairs. Maintenance requests for guest rooms, public areas and the kitchen are tracked.

MAINTENANCE FLOW: Register assets (Location + Asset Master) → Complaint/request received (in the room or from HK/FO) → Technician assigned → Repair complete → Asset history. The preventive maintenance schedule is also tracked.

Module Sections Overview

Section	Purpose	Key Screens
MASTERS	Assets & locations register	Location Master, Assets Master
WORKFLOW	Repair process	Maintenance Master (HK linked), Service Master

Key Benefits

- Asset-wise complete repair history
- HK/FO integration of room maintenance — track OOO/blocked rooms
- Service requests also come from QR portal (guest portal)
- Preventive maintenance reminders

2. Masters Module

2.1 Location Master

Navigation Path: *Maintenance* ► *Location Master*

Location Master

Location Name *

Location Name

Submit

Excel Print

Sn.	Location Name	Status	Action
1	FRONT OFFICE	Active	Update Delete
2	5	Active	Update Delete
3	4	Active	Update Delete
4	3	Active	Update Delete
5	2	Active	Update Delete
6	1	Active	Update Delete

2.1 Location Master

Maintenance locations of the property — Guest Rooms (floor-wise), Lobby, Restaurant, Kitchen, Pool, Generator Room, Lifts etc. Complaints and assets are tagged to this location.

Field	Description
Location Name	Room 201 / Main Kitchen / Rooftop
Type	Room / Public Area / Back Area
Active	Is the location in use or not?

2.2 Assets Master

Navigation Path: *Maintenance* ► *Assets Master*

Showing 1 to 2 of 2 entries

Previous 1 Next

2.2 Assets Master

Record of every asset — AC unit, geyser, TV, kettle, lift, pump. Asset code, location, brand/model, purchase date, warranty, AMC details. Repair history attaches here. Excel export is also available.

Field	Description
Asset Code/Name	Unique ID + name (AC-201, Geyser-305)
Location	Where is it installed
Brand/Model/Serial	Make details
Purchase/Warranty	When purchased, how long is the warranty?
AMC	Annual maintenance contract details

3. Workflow Module

3.1 Maintenance Master (HK Integration)

Navigation Path: *Maintenance* ► *Maintenance Master (via HK)*

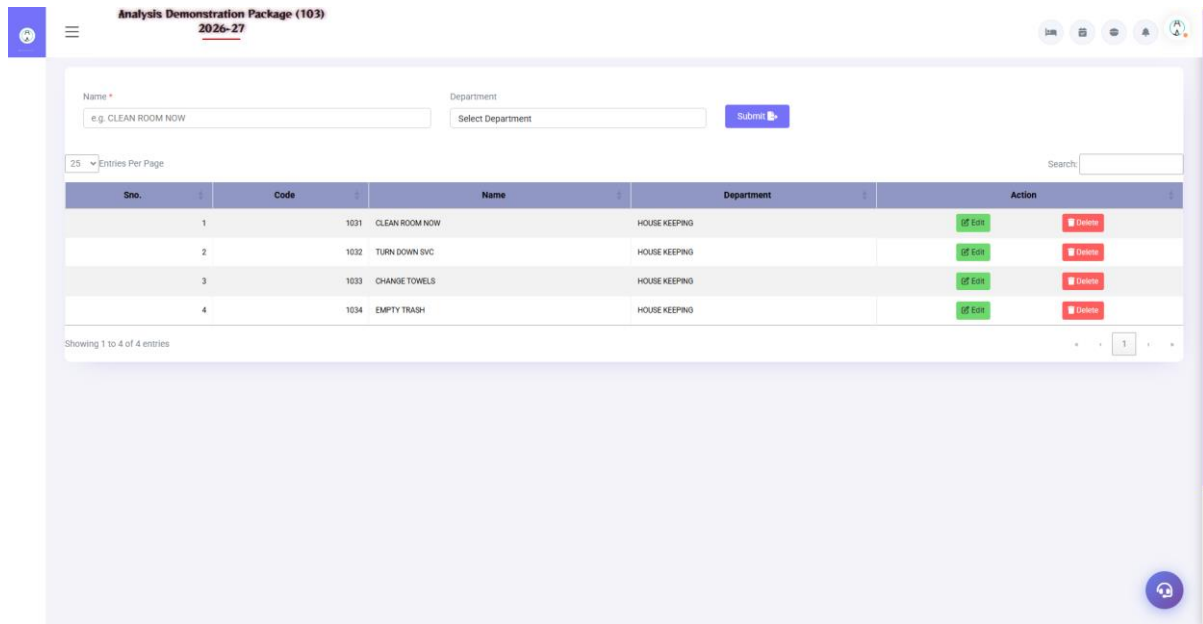

3.1 Maintenance Master (HK Integration)

Register of Room-wise maintenance complaints — Housekeeping or FO raises complaint (AC on room is bad etc.), technician updates status (Pending → In Progress → Done). Room block/OOO is also managed here.

Field	Description
Room/Location	where is the problem
Complaint	what is the issue
Reported By	HK/FO/Guest request
Assigned To	Which technician
Status	Pending / In-Progress / Resolved
Room Status Impact	Resolve hone tak room OOO/Block

3.2 Service Master

Navigation Path: *Maintenance* ► *Service Master*

3.2 Service Master

Service types by defining — Electrical, Plumbing, AC, Carpentry, IT. Complaint category comes from here, for department wise assignment.

Field	Description
Service Name	AC Service / Plumbing / Electrical
Department	Engineering team mapping
Active	Not in use

3.3 Complaint-to-Resolution Flow (Training Flow)

1. Complaint received — from HK/FO/Guest portal (or create it yourself)
2. Register the complaint in Maintenance Master — location + service type
3. Assign the technician — status In-Progress
4. If material was used, requisition it (from the Inventory module)
5. Repair complete — status Resolved + remarks
6. Room was to HK please inform — room status update (for cleaning)

4. Complete Screens Gallery — Maintenance (All Captured Screens)

This gallery is a reference to the captured screens throughout the Maintenance module — for training revision.

5. Appendix

Engineering Team Daily Workflow

Time	Activity	Screen
Morning	View the list of pending complaints	Maintenance Master
All day	Assign and resolve complaints	Maintenance Master
All day	Room LLC/block manage with FO	Maintenance Master + FO Room Status
Weekly	Preventive maintenance (AC filter, pumps)	Assets Master
Monthly	Track AMC vendor visits	Assets Master (AMC field)

Common Scenarios (Training Q&A)

Scenario	what to do
AC faulty in the guest room	Create the complaint, mark the room OOO/blocked if the repair is long, and inform FO to provide an alternate room
Asset sent outside for repair	Gate Pass Exit (Inventory) + asset pe remark
Same complaint baar baar	Review asset history — suggest replacement
Request received from the guest portal	Accept in the Service Desk / Service Request Register

Troubleshooting

Issue	Cause	Solution
Complaint is not saving	Location/Service not selected	Fill in both mandatory fields
Asset is not visible in the list	Wrong location filter	View by using Location filter 'All'.
Room LLC status is not shown in FO	Room was not blocked	Block the room from Maintenance or manually from FO

Issue	Cause	Solution
Excel export khali	No data in filters	Check the date range/location filters
