1. Introduction & Module Overview

The reservation module is the system for future bookings — if a guest calls today and books a room for next week, the entry happens here. It is an extension of Front Office: a reservation converts to check-in. In Analysis HMS the reservation flow: Enquiry → Booking create (guest + room type + dates + advance) → Confirmation → Check-In in Front Office on arrival day → No-show/cancellation handling. OTA bookings are also pulled into this via the Channel Manager (in EXTRAs).

Module Sections Overview

Section	Purpose	Key Screens
OPERATIONS	Making and managing bookings	Reservation form (Shift+Q), Reservation List, Look Up Rooms
REPORTS	Arrival/forecast analysis	Arrival List, Lookup Room Type, Advance Report, Occupancy Forecast

Reservation Data Flow (Technical Understanding)

what are you doing	Database	what happened?
Booking create	guestfolio + roomocc	Reservation entry is created (chkoutdate, status)
Take advance	guestfolio (advance entry)	Advance amount has been credited in the folio.
Quick add company/agent	guestprof	Company/Travel agent profile is created
Check-in pe convert	roomocc update	Reservation is available in-room.

Key Benefits

- New reservation form in 2 seconds with Shift+Q
- Live room availability — via Look Up Rooms
- Advance/deposit tracking with receipts
- Occupancy forecast — room/sold picture of the coming days
- Company/Agent quick-add — profile right at booking time
- Cancellation letter and reservation card printing
- OTA (channel manager) integration ready

Reservation Staff Daily Workflow

Time	Activity	Screen
Morning	Print the list of today's arrivals.	Arrival List
Morning	Tentative bookings will be confirmed (deadline check)	Reservation List
All day	Create new bookings — call/OTA/walk-in enquiry	Reservation (Shift+Q)
All day	Advance receive and record	Reservation form / Advance Report
Evening	See forecast for next 7-30 days	Occupancy Forecast
OTA sync	Channel manager should verify bookings.	EXTRAS → Channel Manager → Data Push

Common Scenarios (Training Q&A)

Scenario	what to do
Guest changed the dates	Reservation List → Edit → nayi dates → save (availability check)
Guest is canceling	Reservation List → Cancel → print cancellation letter (advance refund note as per policy)
Guest turned no-show	With Status No-Show — night audit is also done automatically (depending on the parameter).
Corporate booking — bill to the company	Company dropdown select ya quick-add + Bill To = Company
Booking received from OTA	Automatic from channel manager; if received manually, select source OTA
Advance cash mila	Advance in the reservation form or Front Office → Advance Deposit Entry

Troubleshooting

Issue	Cause	Solution
Reservation is not being saved	Required fields missing	Check guest name + mobile + dates + room type
Availability 0 in the room type	Rooms were full on that date	Check alternate type/date in Look Up Rooms
Not visible in advance report	Advance saved not done	Edit the reservation and verify the advance entry
Reservation not found at check-in	Date ya status filter	Check the date range and status in the Reservation List
Double booking happened	Manual entry + OTA clash	Do a cancel; Habito to verify before creating Look Up Rooms
